Experience

Intern ReactJs Developer — January 2024 - April 2024
The One Web Technology — *Vadodara, India*
- Gained hands-on experience during a React.js internship by building FoodZing, a fully responsive food-ordering website using React.js and Firebase, with features like real-time database, authentication, and user-friendly UI for web and mobile platforms.

Intern Web Design With React — July 2023 - August 2023
BrainyBeam Info-Tech Pvt. Ltd — *Ahmedabad*
- Designed and developed the dynamic website named as Joogad: An- e-Commerce Website For Grocery and Vegetables using React.

Academic Projects

Rakhi Store – Freelance E-commerce Website | *React.js, HTML5, CSS3, JavaScript, Figma, Hostinger*   Link
- Developed and delivered a fully responsive React.js e-commerce website for a client selling handmade rakhis, featuring multi-page routing and custom cart functionality.
- Designed UI using Figma and integrated personalized rakhi images for a visually rich product showcase without using any backend.
- Implemented SEO-friendly meta tags, Open Graph support for WhatsApp/Facebook sharing, and deployed the website live using Hostinger and a custom domain.

FoodZing - A Food Ordering Website | *HTML, CSS, React.js, Firebase and Figma*   Link
- Integrated Firebase to handle backend functionalities including user authentication (login/signup) using Firebase Authentication.
- Built core features such as product listing, cart functionality, and order placement using modular React components; applied responsive design techniques to ensure cross-device compatibility and designed a clean, user-friendly interface with HTML and CSS.

Music Player | *HTML, CSS, Javascript and Figma*   Link
- Developed a custom Spotify-like music player using HTML, CSS, and JavaScript, featuring play/pause, song navigation, volume control, shuffle, repeat, and MP3 download functionalities for a responsive and engaging user experience.
- Optimized the UI for desktop and mobile devices, ensuring smooth media handling and error-free playback, while creating a scalable structure for future feature expansion.

Landing Page: The Maroons   Link
- Built a responsive and modern landing page with a focus on clean UI and smooth user experience.
- Connected Firebase to enable real-time "Contact Us" form submissions and data handling.
